TTBJ

筑波大学留学生センターで作成し、改良を重ねてきた
テストを集めたものです。
TTBJには、2つの利用方法があります。
個人受験と団体受験です。

If you are looking
for great online
Japanese testing
tools and new
ideas of teaching,
check out this
free workshop!

This workshop gives you invaluable opportunities to learn about various online tools (e-learning for Japanese, J-CAT [Japanese computerized Adaptive Test], TTBJ [Tsukuba Test-Battery of Japanese]) developed by the Center for Distance Learning of Japanese and Japanese Issues at Tsukuba University. The workshop (in Japanese) is intended for Japanese language teachers at any level and graduate students.

TTBJ is a collection of tests developed by the
International Student Center at the University of Tsukuba.
TTBJ is available for use according to the following two methods:
as an individual test taker, as a group test taker.

mahalo!

Japanese Studies

J-CAT
J-CAT Japanese Computerized Adaptive Test

Language: 日本語 English 中文

Welcome to J-CAT Japanese Language Test

J-CAT Japanese Language Test automatically evaluates the proficiency of the Japanese language on the computer.

Automatic judgement of Japanese language skill

Online automatic grading
Computers with internet connection can be used to take the test. Answers will immediately be graded automatically. As the exam ends, the score will show on the upper hand of the screen, and the examinee's Japanese language skill will be judged.

- J-CAT Information
 - About J-CAT test
 - Interpretation of J-CAT scores
 - Systems requirements
 - Inquiry
 - User policy
 - Link/Acknowledgement

- Learn how to make effective proficiency and placement decisions using the J-CAT and TTBJ.
- Be introduced to a new teaching method dubbed the "New Silent Way" to promote learner autonomy.
- Be encouraged to ask yourself about the future role of language teachers in a new era full of technology.
